2017-2018

CONTRACTING OPPORTUNITIES FORECAST ►►

- ◇ Buffalo District (W912D4)
- ◇ Chicago District (W912P6)
- ◇ Detroit District (W911XK)
- ◇ Huntington District (W91237)
- ◇ Louisville District (W912QR)
- ◇ Nashville District (W912P5)
- ◇ Pittsburgh District (W911WN)

It is my honor to present the U.S. Army Corps of Engineers (USACE) Great Lakes and Ohio River Division Fiscal Year 2017 Contracting Opportunities Forecast. The Great Lakes and Ohio River Division is comprised of seven (7) districts: Buffalo, Chicago, Detroit, Huntington, Louisville, Nashville and Pittsburgh. This week, we afford you *over 100 opportunities* to help the “Nations Engineers” execute our mission, and achieve established small business goals. We depend on you as competent, responsible contractors to help us bring value to the Nation, and abroad.

Doing business with USACE is simple. Once a requirement is identified, we conduct market research through outreach events such as this week’s SAME Small Business Conference and district Industry Days. We rely on ‘Sources Sought’ notices posted at the Federal Government’s Point of Entry website, FedBizOpps.gov (www.fbo.gov) and use the Small Business Administration’s Dynamic Small Business Search (<http://dsbs.sba.gov/dsbs>) to identify businesses interested in performing the work.

For your convenience, our forecasted contract opportunities for fiscal years 2017-18 are displayed by district. We invite small business, women-owned small business, veteran owned/service disabled veteran owned small business, small disadvantaged, historically underutilized business zone and historically black colleges and universities/minority institutions to work with us. If you have questions about an opportunity within a district, don’t hesitate to call or e-mail any point of contact beginning on page 22.

Sincerely,

A handwritten signature in black ink, appearing to read "F. Joe Hastings".

F. Joe Hastings, Assistant Director
Office of Small Business Programs
U.S. Army Corps of Engineers
Great Lakes and Ohio River Division
